
Special Issue on Applications of ChatGPT

Call for Papers

"Applications of ChatGPT" refers to the diverse range of practical uses for the ChatGPT, a variant of the GPT (Generative Pre-trained Transformer) model developed by OpenAI, which leverages deep learning to understand and generate human-like text. This topic explores how ChatGPT can be employed across various domains such as customer service, through automated but personalized responses; content creation, by generating articles, essays, and reports; education, as a tutoring aid providing explanations and answering student queries; programming, assisting developers by generating code snippets and debugging; entertainment, crafting stories, jokes, and composing music; and mental health, offering preliminary support and conversation. These applications demonstrate ChatGPT's versatility and its potential to revolutionize interactions between computers and humans, enhance productivity, and foster innovation across multiple sectors.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Applications of ChatGPT**. Potential topics include, but are not limited to:

- Customer service automation
- Virtual assistance and chatbots
- Content creation and writing assistance
- Information retrieval and question answering
- Personalized recommendation systems
- Educational applications and tutoring
- Mental health support
- Conversational agents in healthcare
- Programming and code generation
- Language translation and localization
- Personal assistants and productivity tools
- Social media moderation and content filtering
- Accessibility and inclusive technology
- Gaming and character simulation

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Applications of ChatGPT**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	August 9th, 2024
Publication Date	October 2024
