***Journal of Crystallization Process and Technology (JCPT)*** is an open access journal accessible for free on the Internet. At Scientific Research Publishing (SCIRP), we guarantee that no university library or individual reader will ever have to buy a subscription or pay any pay-per-view fees to access articles in the electronic version of the journal.

Journal of Crystallization Process and Technology (JCPT) is an international, specialized, English-language journal devoted to publication of original contributions concerning with the crystallization process, studies and properties of the crystalline materials. It covers the basic sciences, engineering aspects and applied technology of crystals and crystallization processes, both the experimental and theoretical aspects including physical, chemical, and biological phenomena and processes related to the design, growth, and application of crystalline materials. The journal publishes original papers including but not limited to the following fields:

- Apparatus, Instrumentation and Techniques for Crystal Growth, and Purification Methods
- Biological Substances Crystallization
- Biomineralization
- Characterization by Physical and Chemical Methods
- Characterization of Single Crystals
- Crystal Growth of Metals
- Crystal Growth of Minerals
- Crystal Growth of Semiconductors
- Crystal Growth of Superconductors
- Crystallization as Bulk or Thin Films
- Crystallization in Glasses
- Crystallization in Polymers, Liquid Crystals Crystallization in Sol-Gel Glasses and Viscous Media
- Crystallization Processes Including among Others Chemical Vapor Deposition, Hydrothermal, Organic, Solvent and Solvent-Free Processes
- Crystals Growth, Design and Properties for Applications in Medical Sciences with Organic
- Directional Growing
- Intermolecular Interactions in the Solid State
- Modeling of Crystal Growth Processes
- Nucleation Theory
- Opto-Electronics with Semiconductors, Superconductors, Magnetics, Inorganic Inorhanic-Organic Hybrid Materials Crystallization
- Purification Methods
- Transport Phenomena in Crystal Growth

## Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

## ***What is SCIRP?***

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

## ***What is Open Access?***

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
