Subject Coverage
This journal invites original research and review papers that address the following issues in cancer therapy. Topics of interest include, but are not limited to:

- Biomarkers Discovery
- Latest Technology in Cancer Detection and Treatment
- Cancer Etiology
- Pharmaceutical and Medical Therapy Development
- Cancer Genes and Genomics
- Principles of Cancer Biology
- Clinical Trials in Oncology
- Scientific Advances in Prevention and Diagnosis
- Experimental Therapeutics
- Target Identification and Validation
- Human Immunology
- Medical University of South Carolina, USA

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of JCT.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
