

Advances in Bladder Cancer Research

Call for Papers

Bladder cancer is a disease in which abnormal cells multiply without control in the bladder. Broadly, there are two types of bladder cancer: Primary cancer and metastatic carcinoma. Around the world, bladder cancer ranks fourth in the most common male solid tumor and seventh in women. Every year there are over 350000 new bladder cancer patients.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Bladder cancer**.

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "*Special issue- Bladder cancer*" should be chosen during your submission.

According to the following timetable:

Manuscript Due	April 27th, 2013
Publication Date	June 2013
