Special Issue on Ovarian Cancer

Call for Papers

Ovarian cancer is a cancer that forms in or on an ovary. It results in abnormal cells that have the ability to invade or spread to other parts of the body. When this process begins, there may be no or only vague symptoms. Symptoms become more noticeable as the cancer progresses. Common areas to which the cancer may spread include the lining of the abdomen, lymph nodes, lungs, and liver.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Ovarian Cancer**. Potential topics include, but are not limited to:

- Screening and early detection
- Diagnosis and treatment
- Pathophysiology
- Genetic and cell research
- Ovarian metastasis
- Ovarian tumor
- Epithelial ovarian cancer
- Prevention and management
- Risk factors
- In pregnancy

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue – *Ovarian Cancer***" should be chosen during your submission.

According to the following timetable:

Submission Deadline	November 13th, 2020
Publication Date	January 2021
