

Special Issue on Diabetes Care and Treatment

Call for Papers

Diabetes care and treatment refer to the various strategies, interventions, and approaches aimed at managing diabetes and improving the overall health and well-being of individuals with diabetes. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of diabetes.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Diabetes Care and Treatment**. Potential topics include, but are not limited to:

- Diabetes mellitus
- Blood sugar management
- Insulin therapy
- Oral medications for diabetes
- Glucose monitoring
- Diabetic diet and nutrition
- Exercise and physical activity for diabetes
- Diabetic complications
- Diabetes self-management
- Diabetic foot care
- Gestational diabetes
- Type 1 diabetes
- Type 2 diabetes
- Hypoglycemia (low blood sugar)
- Hyperglycemia (high blood sugar)

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Diabetes Care and Treatment**” should be selected during your submission.

Special Issue Timetable:
