Volume 5    Number 1

March 2015

<b>Modeling the Rheological Characteristics of Flexible High-Yield Pulp-Fibre-Reinforced Bio-Based Nylon 11 Bio-Composite</b>	
R. Cherizol, M. Sain, J. Tjong.....	1
<b>Preparation of Composite Particles Made of Biodegradable Polymer and a Few Additives with Phase Separation Followed by Drying-in-Liquid</b>	
M. Kutsuwada, Y. Taguchi, M. Tanaka.....	11
<b>Comparative Study of Adsorption of Copper Ion onto Locally Developed and Commercial Chitosan</b>	
S. A. Akolo, A. S. Kovo.....	21
<b>Study the Removal of Fluoride from Aqueous Medium by Using Nano-Composites</b>	
T. K. Rout, R. Verma, R. V. Dennis, S. Banerjee.....	38
<b>Designing Novel Calix[4]Pyrrole Derivative for Treatment of Herbicides: Thermodynamics of Host-Guest Interactions</b>	
A. Y. I. Rubaye, A. A. Abdulwahid, H. T. Abdulsahib.....	53
<b>Implementation of a Simulation Model of the Controlled Release of Molecular Species from Halloysite Nanotubes</b>	
D. N. Elumalai, Y. Lvov, P. Derosa.....	74
