## Special Issue on Water, Air, & Soil Pollution

### Call for Papers

Air pollution refers to the phenomenon that the concentration of pollutants in the air reaches a harmful level, at which the conditions for the normal survival and development of the ecosystem and human beings may be destroyed, thus, causing harm to people and other animals. Soil pollutant is another kind of pollution other than air pollution. Soil pollutants can be roughly divided into inorganic pollutants and organic pollutants. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Water, Air, & Soil Pollution**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Water, Air, & Soil Pollution**. Potential topics include, but are not limited to:

- Environmental modelling and polluted environments
- Environmental pollution and human health
- Control of pollution
- Methods of monitoring water quality
- Soil biodiversity and ecosystem function
- Domestic and industrial waste water
- Sanitary standard for drinking water
- Water and soil erosion
- Water pricing, allocation and competition

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Water, Air, & Soil Pollution**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	August 13th, 2020
Publication Date	October 2020

**Guest Editor:**

**Scientific Research**  
*Open Access*

**Journal of  
Environmental Protection**  
ISSN Online: 2152-2219
