

## Special Issue on Environment and Development

### Call for Papers

In recent years, the frequent occurrence of environmental pollution events has seriously threatened the health of residents in the region. The cumulative harm of environmental pollution to public health has entered the emerging period. To improve the environment and ensure its sustainable development has become an urgent task to protect people's health. A good ecological environment is the foundation of human survival and health, which concerns the vital interests of the people and the long-term future of the nation. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Environment and Development**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Environment and Development**. Potential topics include, but are not limited to:

- Prevention and treatment
- Climatic and environment
- Environment monitoring and analysis
- Environmental technology
- Environmental chemistry
- Environment and economic development
- Environmental management
- Ecology and environment
- Energy, environment and sustainable development

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Environment and Development**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	October 21st, 2020
Publication Date	December 2020

**Guest Editor:**
