

Special Issue on
Environmental Research and Human Health
Call for Papers

Environmental Research and Human Health studies all aspects of environment and its effects on ecosystems and human health. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of environment and human health.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Environmental Research and Human Health**. Potential topics include, but are not limited to:

- Toxic wastes
- Electronic wastes
- Hazardous wastes
- Soil contamination
- Environmental pollutants
- Radioactive contamination
- Sources and occurrences of pollutants
- Pollution effects on public health
- Health effects from radiation
- Environmental health

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Environmental Research and Human Health**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	May 16th, 2022
Publication Date	July 2022
