Announcement

Owing to the large number of manuscripts that we are receiving, Journal of Geographic Information System (JGIS) will increase the publication frequency from quarterly to bimonthly as of June 2012.

JGIS Editorial Office
TABLE OF CONTENTS

Volume 4  Number 3  June 2012

Detection of Land-Use and Surface Temperature Change at Different Resolutions
EL. E. Omran ............................................................ ............................................................. 189

Determination of Optimal Zones for Forest Plantations in the State of Mexico Using Multi-Criteria Spatial Analysis and GIS
N. B. P. Jaimes, J. B. Sendra, M. G. Delgado, R. F. Plata, X. A. Némiga, L. R. M. Solís ..................................................... 204

Climate Change Induced Land Degradation and Socio-Economic Deterioration: A Remote Sensing and GIS Based Case Study from Rajasthan, India
A. Javed, S. Jamal, M. Y. Khandey .......................................................... ............................................................. 219

Land Transformation Analysis Using Remote Sensing and GIS Techniques (A Case Study)
A. Amin, S. Fazal .......................................................................................... ............................................................. 229

Quantitative versus Qualitative Geospatial Data in Spatial Modelling and Decision Making
K. K. Lwin, Y. Murayama, C. Mizutani .......................................................... ............................................................. 237

A Spectroscopic Approach to Assess Heavy Metals Contents of the Mine Waste of Jalta and Bougrine in the North of Tunisia
S. Gannouni, N. Rebai, S. Abdeljaoued .......................................................................................................................... 242

Suitable Site Selection of Decentralised Treatment Plants Using Multicriteria Approach in GIS
K. Deepa, M. Krishnaveni .......................................................................................... ............................................................. 254

Development of a Web Based GIS Application for Spatial Natural Resources Information System Using Effective Open Source Software and Standards
P. S. Singh, D. Chutia, S. Sudhakar .......................................................................................................................... 261

A Geospatial Approach to Climatic Zone Specific Effective Horticultural Planning in East Khasi Hills District of Meghalaya, India
J. Goswami, D. Chutia, S. Sudhakar .......................................................................................................................... 267

Call for Papers

Journal of Geographic Information System (JGIS)
ISSN 2151-1950 (Print)    ISSN 2151-1969 (Online)
http://www.scirp.org/journal/jgis/

Journal of Geographic Information System (JGIS) is a comprehensive international academic theory journal associated published by Zondy Cyber Group and SRP (Scientific Research Publishing) Inc. The goal of this journal is to provide an international platform for engineers and academicians all over the world to promote, share, and discuss various new issues and developments in relevant GIS fields.

Editor-in-Chief
Prof. Jordi Marti Henneberg
University of Lleida, Spain

Subject Coverage

- Cartography and Geodesy
- Computational Geometry
- Computer Vision Applications in GIS
- Distributed, Parallel, and GPU Algorithms for GIS
- Earth Observation
- Environmental Geomatics—GIS, RS and Other Spatial Information Technologies
- Geographical Analysis for Urban and Regional Development
- Geographic Information Retrieval
- GIS and Cloud Computing
- GIS and High Performance Computing
- Human Computer Interaction and Visualization
- Image and Video Understanding
- Location-Based Services
- Location Privacy, Data Sharing and Security
- Performance Evaluation
- Photogrammetry
- Similarity Searching
- Social Networks and Volunteer Geographic
- Spatial Analysis and Integration
- Spatial and Spatio-Temporal Information Acquisition
- Spatial Data Mining and Knowledge Discovery
- Spatial Data Quality and Uncertainty
- Spatial Data Structures and Algorithms
- Spatial Data Warehousing, OLAP, and Decision Support
- Spatial Information and Society
- Spatial Modeling and Reasoning
- Spatial Query Processing and Optimization
- Spatial Semantic Web
- Spatio-Temporal Data Handling
- Spatio-Temporal Sensor Networks
- Spatio-Temporal Stream Processing
- Spatio-Textual Searching
- Standardization and Interoperability for GIS
- Storage and Indexing
- Systems, Architectures and Middleware for GIS
- Traffic Telematics
- Transportation
- Visual Languages and Querying
- Wireless, Web, and Real-Time Applications

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the JGIS.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
