

Table of Contents

Volume 6 Number 1

January 2020

Geometrical Meaning of Time and the Theory of Relativity

O. A. Olkhov.....1

Distances and Evolutionary States of Supernova Remnant G18.9-1.1 and Candidate G28.6+0.0

S. Ranasinghe, D. Leahy, W. W. Tian.....9

Mass Spectrum of Dirac Equation with Local Parabolic Potential

Y. Q. Gu.....20

Particle Pair Production in Cosmological General Relativity—Redux

F. J. Oliveira.....34

The Case for a Quantum Theory on a Hilbert Space with an Inner Product of Indefinite Signature

O. C. W. Kong.....43

Is Loop Quantum Gravity a Physically Correct Quantization?

J. R. Klauder.....49

Dark Matter and the Energy-Momentum Relationship in a Hydrogen Atom

K. Suto.....52

Physical Significance of Measure

J. A. Geiger.....62

Quantum Gravity Made Easy

J. R. Klauder.....90

Value of High-Frequency Relic Gravitational Wave (HFRGW) Detection to Astrophysics and Fabrication and Utilization of the Li-Baker HFRGW Detector

A. W. Beckwith, R. M. L. Baker Jr.....103

Dark Matter and Baryons (Surplus Quarks) Generated by Oblique Confinement of Quarks

L. Matsson.....123

World-Universe Model—Alternative to Big Bang Model

V. S. Netchitailo.....133

Building a Genuine Quantum Gravity

J. R. Klauder.....159
