Editor-in-Chief
Prof. Moawia Alghalith
University of the West Indies, Trinidad-and-Tobago

Associate Editors-in-Chief
Dr. Fariba Hashemi
Applied Economics Research, Switzerland
Prof. Haim Levy
Hebrew University, Israel
Dr. Stephen Ellwood Satchell
Sydney University, Australia
Prof. Tony S. Wirjanto
University of Waterloo, Canada
Prof. Wing-Keung Wong
Asia University, Chinese Taipei

Editorial Advisory Board
Dr. Ricardas Zitikis
University of Western Ontario, Canada

Honorary Editorial Board
Prof. Christopher Adcock
SOAS-University of London, UK
Prof. Frank J. Fabozzi
EDHEC Business School, France
Prof. Michael McAleer
Erasmus University Rotterdam, The Netherlands

Editorial Board
Mr. Ankit Agarwal
University of Chicago, USA
Dr. Luca Vincenzo Ballestra
Department of Statistical Sciences, University of Bologna, Italy
Prof. Udo Broll
TU Dresden, Germany
Prof. Raymond Hon-Fu Chan
The Chinese University of Hong Kong, China
Dr. Umberto Cherubini
University of Bologna, Italy
Prof. Martin Egozcue
University of the Republic, Uruguay
Dr. Yaqin Feng
Ohio University, USA
Prof. Richard W. Gorvett
University of Illinois, USA
Dr. Zhengfeng Guo
Vanderbilt University, USA
Prof. Xue-Zhong (Tony) He
University of Technology, Australia
Prof. Ivan Ganchev Ivanov
Sofia University “St. Kl. Ohridski”, Bulgaria
Prof. Jau-Lian Jeng
Azusa Pacific University, USA
Prof. Yong H. Kim
University of Cincinnati, USA
Dr. Ka-Chi Lam
City University of Hong Kong, China
Prof. Donald Lien
University of Texas at San Antonio, USA
Dr. Jia Liu
Bloomberg LP, USA
Prof. Alexander Melnikov
University of Alberta, Canada
Dr. Gareth William Peters
University College London, UK
Dr. Hermann Ratsimbanjatiana
University of Perpignan, France
Prof. Goutte Stéphane
University of Paris Diderot, France
Dr. Dimitrios Vortelinos
University of Lincoln, UK
# Table of Contents

**Volume 9  Number 3  August 2019**

**Portfolio Selection in Mean-Minimum Return Level-Expected Bounded First Passage Time Framework**
T. Kutalia..........................................................................................................................................................229

**Bank Portfolio Management under Credit Market Imperfections**
I. Mallick..........................................................................................................................................................239

**Optimal Investment and Risk Control Strategies for an Insurance Fund in Stochastic Framework**
P. K. Mwanakatwe, X. G. Wang, Y. Su........................................................................................................254

**Possibility for Short-Term Forecasting of Japanese Stocks Return by Randomly Distributed Embedding Theory**
S. Sugitomo, K. Maeta..................................................................................................................................................266

**Application of Linear Programming in Optimizing Labour Scheduling**
O. Y. M. Al-Rawi, T. Mukherjee.......................................................................................................................272

**Modelling Obsolescence Risk and Taxation in Project Valuation**
V. Hooper, J. Pointon........................................................................................................................................286

**Hedging the Treasury Lock**
M. Pucci..........................................................................................................................................................301

**Effect of Feedback on eBay Sellers’ Business Using Markov Chain**
Y. M. Dib, N. Roumieh, G. Saab, M. Maroun....................................................................................................325

**Optimal Portfolio Choice in a Jump-Diffusion Model with Self-Exciting**
B. J. Bian, X. F. Chen, X. D. Zeng.....................................................................................................................345

**The Impact of Stock Names on the Expected Stock Return**
S. Song, R. Li......................................................................................................................................................368

**A Valuation Model for the Variable Rate Demand Obligation**
V. Hooper, J. Pointon........................................................................................................................................388

**A Valuation Model for Callable Eurobonds**
V. Hooper, J. Pointon........................................................................................................................................394
Forecasting the Impact of Information Security Breaches on Stock Market Returns and VaR Backtest
I. Colivicchi, R. Vignaroli

Embedding Stochastic Correlation into the Pricing of FX Quanto Options under Stochastic Volatility Models
T. Pellegrino

Fast Fourier Transform Based Computation of American Options under Economic Recession Induced Volatility Uncertainty
P. A. Bankole, O. O. Ugbebor

Credit Scoring with Ego-Network Data
S. Sewe, P. Ngare, P. Weke

A General Framework of Optimal Investment
L. L. Zhang

Derivatives Pricing via Machine Learning
T. T. Ye, L. L. Zhang
Journal of Mathematical Finance (JMF)

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: jmf@scirp.org
Journal of Mathematical Finance (JMF) aims at presenting the latest development on pure and applied financial mathematics. It considers important theoretical, empirical and review papers.

Editor-in-Chief
Prof. Moawia Alghalith
University of the West Indies, Trinidad-and-Tobago

Editorial Board
Mr. Ankit Agarwal
Dr. Luca Vincenzo Ballestra
Prof. Udo Broll

Subject Coverage
The journal publishes original papers including but not limited to the following fields:

• Financial Engineering
• Financial Statistics
• Pricing Theory of Securities and Portfolio
• Quantitative Economics

• Solutions to PDEs
• Stochastic Optimization and Control
• Stochastic Processes

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

**What is SCIRP?**

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

**What is Open Access?**

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
