

Special Issue on Financial Statistics and Data Analysis

Call for Papers

Financial statistics is a methodological study of the quantitative aspects of financial phenomena. Financial statistics include bank credit statistics, money supply and circulation statistics, and financial market statistics. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Financial Statistics and Data Analysis**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Financial Statistics and Data Analysis**. Potential topics include, but are not limited to:

- Statistical modelling in finance
- Credit income and expenditure statistics
- Financial and operating statistics
- Econometrics
- Financial market statistics and data analysis
- Financial analysis
- Estimation, inference and forecasting
- Application of statistical techniques

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Financial Statistics and Data Analysis**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	April 28th, 2021
Publication Date	June 2021
