

Special Issue on Stochastic and Financial Mathematics

Call for Papers

With the development of modern economics and finance empirical research, stochastic method as a mathematical tool has more and more important application value. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Stochastic and Financial Mathematics**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Stochastic and Financial Mathematics**. Potential topics include, but are not limited to:

- Stochastic optimization and control
- Stochastic processes
- Stochastic volatility and pricing
- Fuzzy optimization of option pricing
- Stochastic games
- Stochastic integrals
- Stochastic calculus and finance
- Stochastic methods in finance
- Stochastic modeling in economics and finance

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Stochastic and Financial Mathematics**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	June 5th, 2021
Publication Date	August 2021
