

Special Issue on Finance and Securities

Call for Papers

Securities are fungible and tradable financial instruments used to raise funds in public and private markets. It can be roughly divided into two different types: stocks and debt. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Finance and Securities**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Finance and Securities**. Potential topics include, but are not limited to:

- Derivative securities
- Clearing and settlement
- Regulation and compliance
- Debt securities
- Electronic trading and STP
- Bond valuation
- Bond market
- Stock exchange
- Securities operations and custody
- Global and local custodian banking
- Stock investment
- Trade stocks & shares

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Finance and Securities**” should be selected during your submission.

Special Issue Timetable:
