Special Issue on

Emerging Digital Technologies and Applications

Call for Papers

"Emerging Digital Technologies and Applications" is an academic topic that explores the latest advancements in digital technologies and their applications across various domains. This field focuses on new and emerging technologies such as blockchain, Internet of Things (IoT), virtual reality (VR), augmented reality (AR), cloud computing, and data analytics. Researchers investigate the potential use cases, benefits, challenges, and implications of these technologies to develop innovative solutions and drive digital transformation. This topic contributes to expanding knowledge and understanding of the rapidly evolving digital landscape and its impact on industries, society, and individuals.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Emerging Digital Technologies and Applications**. Potential topics include, but are not limited to:

- Intelligent information systems
- AI, machine learning and applications
- Technologies of cloud computing
- Virtual and augmented reality
- Computer aided technology
- Blockchain technology and applications
- Internet of Things (IoT) and sensor networks
- Virtual reality (VR) and augmented reality (AR) applications
- Cloud computing and edge computing
- Data analytics and big data applications
- Artificial intelligence and machine learning in digital technologies
- Cybersecurity and privacy in emerging digital technologies
- Smart cities and urban planning applications
- Healthcare applications of digital technologies
- E-commerce and digital financial & marketing strategies
- Mobile computing and applications
- Digital transformation in industries and organizations
- Human-computer interaction and user experience design
- Social media platforms and digital content creation
- Sustainability and environmental applications

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue – *Emerging Digital Technologies and Applications***" should be chosen during your submission.

According to the following timetable:

Submission Deadline	May 24th, 2024
Publication Date	July 2024

For publishing inquiries, please feel free to contact the Editorial Assistant at submission.entrance1@scirp.org
