Volume 4 Number 3

August 2013

Time-Varying Bandpass Filter Based on Assisted Signals for AM-FM Signal Separation: A Revisit

G. L. Xu, X. T. Wang, X. G. Xu, L. J. Zhou, L. M. Shao.....229

Boosted Vehicle Detection Using Local and Global Features

C. T. Lin, S.-C. Hsu, J.-F. Lee, C.-T. Yang.....243

Exploration and Cooperation Robotics on the Moon

M. Alfraheed, A. O. Al-Zaghameem.....253

Spatial Image Watermarking by Error-Correction Coding in Gray Codes

T. Kimoto.....259

Generalized Parseval's Theorem on Fractional Fourier Transform for Discrete Signals and Filtering of LFM Signals

X. T. Wang, G. L. Xu, Y. Ma, L. J. Zhou, L. T. Wang.....274

Quantitative Convergence for Cerebral Processing of Information within the Geomagnetic Environment

M. A. Scott, M. A. Persinger.....282

Track-to-Track Association Technique in Radar Network in the Presence of Systematic Errors

J. Yang, Q. Song, C. W. Qu, Y. He.....288

Depth-Aided Tracking Multiple Objects under Occlusion

A. T. Tran, K. Harada.....299

Application of PDE and Mathematical Morphology in the Extraction Validation of the Roads

F. Leonardi, V. S. Santiago, C. D. Chaves, E. A. da Silva.....308

Single-Channel Speech Enhancement Using Critical-Band Rate Scale Based Improved Multi-Band Spectral Subtraction

N. Upadhyay, A. Karmakar.....314

Depth Based View Synthesis Using Graph Cuts for 3DTV

A. T. Tran, K. Harada.....327

Parametrically Optimal, Robust and Tree-Search Detection of Sparse Signals

A. T. Burrell, P. Papantoni-Kazakos.....336

The figure on the front cover is from the article published in Journal of Signal and Information Processing, 2013, Vol. 4, No. 3, pp. 253-258 by Mohammad Alfraheed and Abdullah O. Al-Zaghameem.
