
Special Issue on Communication Management

Call for Papers

Communication is the study of all human communication behaviors and the rules of occurrence and development of communication process, as well as the relationship between communication and people and society. It is the science of studying social information systems and their operating laws. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Communication Management**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Communication Management**. Potential topics include, but are not limited to:

- Structure and function of communication
- Mass communication
- Communication theory
- Interpersonal communication
- Intercultural communication
- Impact on society, social groups and individuals
- Media development and communication technology
- Political communication
- Organizational communication
- Communications skills

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Communication Management**” should be selected during your submission.
