

Special Issue on
Social, Psychological and Behavioral Sciences

Call for Papers

Social, Psychological and Behavioral Sciences focuses on the study of cognitive, social, developmental and biological psychology within the broader context of the behavioral sciences. It aims to develop our scientific understanding of human thoughts and behaviors, the psychological processes underlying these and the relationship of these processes to brain function. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Social, Psychological and Behavioral Sciences.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Social, Psychological and Behavioral Sciences**. Potential topics include, but are not limited to:

- Social behavior
- Social interaction
- Social cognition
- Social psychology
- Developmental psychology
- Personality psychology
- Social influence
- Group dynamics
- Social identity
- Social perception
- Social network analysis
- Human behavior
- Social norms
- Organizational behavior
- Consumer behavior
- Intergroup relationships

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Social, Psychological and Behavioral Sciences**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	December 28th, 2023
Publication Date	February 2024
