

Special Issue on Studies in Security and Risk Management

Call for Papers

Studies in Security and Risk Management focuses on advancing research and practical insights into the identification, assessment, and mitigation of risks across diverse domains, including cybersecurity, physical security, financial systems, and organizational resilience. This theme encompasses strategies for risk analysis, threat modeling, crisis management, and the implementation of robust security frameworks to protect assets, information, and infrastructure. By integrating interdisciplinary approaches from technology, management, and policy, the issue aims to explore innovative solutions that enhance security preparedness, reduce vulnerabilities, and promote sustainable risk governance in an increasingly complex and interconnected world.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Studies in Security and Risk Management**. Potential topics include, but are not limited to:

- Crisis communication and management
- Critical infrastructure protection
- Cybersecurity and information protection
- Disaster and emergency management
- Enterprise risk management
- Financial risk management
- Industrial and occupational safety
- Insider threats and fraud prevention
- Physical security systems
- Resilience and business continuity planning
- Risk assessment and analysis
- Risk modeling and simulation
- Security auditing and compliance
- Security policy and governance
- Supply chain security
- Threat intelligence and management

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - *Studies in Security and Risk Management***” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	March 25th, 2026
Publication Date	May 2026

Guest Editor:

Dr. Alexander Valyaev

Nuclear Safety Institute, Russian Academy of Sciences, Moscow, Russia
