

Special Issue on Highway and Transportation

Call for Papers

Highway and Transportation focuses on the planning, design, construction, maintenance and operation of land-based transport systems and infrastructure. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of highway and transportation.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Highway and Transportation**. Potential topics include, but are not limited to:

- Highway maintenance
- Highway safety and efficiency
- Parking and transportation
- Pedestrian crossings
- Road projects
- Roads, pavements and verges
- Roadside safety
- Traffic management and road safety
- Transport strategy and planning
- Bridge engineering
- Road engineering
- Tunnel engineering
- Tunnels and underground structures
- Information technology of transportation
- Planning and management of transportation

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Highway and Transportation**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	July 12th, 2022
---------------------	-----------------

Scientific Research
Open Access

**Journal of Transportation
Technologies**
ISSN Online: 2160-0481

Publication Date	September 2022
