

Special Issue on Drinking Water

Call for Papers

Drinking water is the potable water that is for drinking or food preparation. Getting enough water every day is vital for our health. The water we drink is a combination of surface water and groundwater. It is important to know where drinking water comes from, how it's been treated, and if it's safe to drink.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Drinking Water**. Potential topics include, but are not limited to:

- Tap water
- Groundwater
- Water supply
- Waterborne disease
- Drinking water quality
- Household water treatment
- Safe storage
- Water consumption
- Urban water

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Drinking Water**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	April 12th, 2024
Publication Date	June 2024
