

Special Issue on Water & Environment

Call for Papers

Water a precondition for human, animal and plant life as well as an indispensable resource for the economy. It also plays a fundamental role in the climate regulation cycle. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Water & Environment.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Water & Environment**. Potential topics include, but are not limited to:

- Floodplains
- Public water supplies
- Reservoir
- Rivers
- Seawater desalination
- Sewage recycling
- Water environment solutions
- Water treatment
- Wetlands
- Water & Environment survey
- Modeling of Water & Environment
- Pathogenic or indicator microorganisms and risk assessment
- Hazardous chemicals and waste management
- Treatment of water and resource recovery
- Restoration of contaminated environment

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Water & Environment**” should be selected during your submission.

Special Issue Timetable:

Scientific Research
Open Access

Journal of Water Resource and Protection

ISSN Online: 1945-3108

Submission Deadline	April 30th, 2024
Publication Date	June 2024
