**Modern Chemotherapy (MC)** is an open access journal published quarterly. The goal of this journal is to provide a platform for clinicians and academicians all over the world to promote, share, and discuss various new issues and developments in all aspects of antiinfective and antitumor chemotherapy.

## Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The areas of Modern Chemotherapy (MC) include but are not limited to the following fields:

- Antineoplastic drug
- Antiviral and antitumor compounds
- Chemotherapy-induced nausea and vomiting
- Electrochemotherapy
- Isolated infusion approaches
- Microbiological and pharmacologic properties of antibacterial
- Myelosuppression
- Side-effects of chemotherapy
- Targeted delivery mechanisms

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.
