Special Issue on Applied Economics

Call for Papers

Applied economics is the application of economic theory to determine the likely outcomes associated with various possible courses of action in the real world. By better understanding the likely consequences of choices made by individuals, businesses, and policy makers, we can help them make better choices.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on Applied Economics. Potential topics include, but are not limited to:

- Applied economics and econometrics
- Quantitative methods
- Micro-and macroeconomic theory
- Behavioral and experimental economics
- Decision-making
- Policy analysis
- Political economy
- Public economics
- International economics
- Financial economics
- Applied economics and management
- Applied economics and sustainability
- Labor and population economics
- Health economics
- Agricultural and food economics
- Resource and environmental economics
- Regional and developmental economics
- Applied economics of industry
- Industrial organization and regulation
- Risk and insurance

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Applied Economics” should be chosen during your submission.
According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>August 9th, 2022</th>
