Special Issue on Health Economics and Management

Call for Papers

Health economics is concerned with issues related to efficiency, effectiveness, value and behavior in the production and consumption of health and healthcare. In broad terms, health economists study the functioning of healthcare systems and health-affecting behaviors.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on Health Economics and Management. Potential topics include, but are not limited to:

- Qualitative methods
- Microeconomic theory,
- Biostatistics and econometrics
- Health and economic growth
- Socioeconomic factors on health
- Healthcare consumerism
- Healthcare expenditure
- Healthcare marketing
- Health insurance
- Health planning
- Health economics and policy
- Hospital management
- Health care financing
- Cost-effectiveness analysis
- Economic evaluation
- Health systems and management
- Health economics in public health
- Value of technology innovation
- Economic impact of disease
- Economic epidemiology
- Pharmaceutical economics
- Health economics, equity, and efficiency

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.
Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Health Economics and Management” should be chosen during your submission.

According to the following timetable:
