

Special Issue on Energy Economics

Call for Papers

Energy Economics is an academic discipline that examines the production, distribution, and consumption of energy within economies. It integrates concepts from economics and engineering to understand how energy resources contribute to economic growth, the impact of energy policies on markets, and the environmental consequences of energy production and use. This field addresses critical issues like resource depletion, renewable energy adoption, energy efficiency, and the economics of climate change, aiming to inform sustainable energy policies and practices for global development.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Energy Economics**. Potential topics include, but are not limited to:

- Electricity market design and regulation
- Energy policy analysis and evaluation
- Energy policy and regulation
- Energy markets and pricing
- Energy finance and market
- Energy prices and inflation
- Global energy crisis
- Economic assessment of energy system
- Low-carbon economy
- Energy, the environment, climate change and renewable energy technologies
- Energy security and political and economic factors
- Energy infrastructure and investment
- Energy demand modeling and forecasting
- Energy efficiency and conservation
- Energy transition and renewable energy economics
- Affordability, availability, and accessibility of energy
- Energy economics and decision-making
- Petroleum, natural gas and nuclear Economics
- Environmental economics within energy markets
- Energy transition and innovation
- Energy finance and investment
- Energy poverty and access
- Energy and economic growth

Authors should read over the journal's [For Authors](#) carefully before submission.

Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Energy Economics**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	November 13th, 2024
Publication Date	January 2025
