

## TABLE OF CONTENTS

Volume 3 Number 3A

July 2013

<b>Properties of Broadband Non-Linear Lossy Materials Employed in the Electromagnetic Inverse Scattering during the Microchip Processing</b>	
E. Barouch, S. L. Knodle, S. A. Orszag.....	1
<b>Microstructure and Strength Properties of Submicro and Nanocrystalline Nickel under Friction</b>	
V. G. Pinchuk, S. V. Korotkevich.....	8
<b>Computational Multiaxial Fatigue Modelling for Notched Components</b>	
A. Ince.....	14
<b>Fractal Cracks Propagation in Aluminum</b>	
F. Casanova del Angel, J. Retama Velasco.....	23
<b>Behavioural modelling of Corundum under the Effect of Porosity Rate</b>	
S.-E. Bendaoudi, M. Bounazef, E.-A. A. Bedia.....	33
<b>Micro-Modelling Approach to Predict the Influence of Hydrogen Pressure on Short Crack Behaviour</b>	
C. Lincourt, J. Lanteigne, M. Krishnadev, C. Blais.....	37

---

The figure on the front cover is from the article published in *Modeling and Numerical Simulation of Material Science*, 2013, Vol. 3, No. 3A, pp. 1-7 by Eytan Barouch, Stephen L. Knodle and Steven A. Orszag.
