Honorary Editor-in-Chief

Prof. Kiet Tieu University of Wollongong, Australia

Executive Editor-in-Chief

Prof. Hailiang Yu Central South University, China

Editorial Board

Dr. Jean-Pierre Badiali Laboratoire d'Electrochimie Chimie Analytique, France
Dr. François Barthelat McGill University, Canada
Prof. Giuseppe Bonifazi Università di Roma, Italy
Prof. Roberto Brighenti University of Parma, Italy
Prof. Zhenshan Cui Shanghai Jiao Tong University, China
Dr. Raj Das University of Auckland, New Zealand
Dr. Behzad Fatahi University of Technology Sydney (UTS), Australia
Prof. Ming Wang Fu The Hong Kong Polytechnic University, China
Dr. Shaogang Hao Iowa State University, USA
Prof. Alireza Heidari American International Standards Institute (AISI), Irvine, California, USA
Dr. Chen Huang Los Alamos National Laboratory, USA
Dr. Ayhan Ince General Dynamics Land Systems, Canada
Dr. Jinwu Kang Tsinghua University, China
Prof. Tariq A. Khraishi University of New Mexico (UNM), USA
Prof. Alexandre Ksenofontov National Research Nuclear University, Russia
Prof. Xianghua Liu Northeastern University, China
Dr. Yingtao Liu University of Oklahoma, USA
Dr. Cheng Lu University of Wollongong, Australia
Dr. Jane Weizhen Lu City University of Hong Kong, China
Prof. Gilles Lubineau COHMAS Laboratory, Saudi Arabia
Dr. Qing Peng Rensselaer Polytechnic Institute, USA
Dr. Lee Yiu Yin Raymond City University of Hong Kong, China
Prof. Houfa Shen Tsinghua University, China
Prof. Ashok Srivastava Louisiana State University, USA
Dr. Ivo Stachiv Institute of Physics, Czech Academy Sciences, Czech Republic
Prof. Baolin Wang The University of New South Wales, Australia
Dr. Huanan Yu Washington State University, USA
Prof. Hamit Yurtseven Middle East Technical University, Turkey
Prof. Shihong Zhang Chinese Academy of Sciences, China

Table of Contents

Volume 11 Number 1

January 2021

**A Mesh-Independent Brute-Force Approach for Traction-Free
Corrections in Dislocation Problems**

A. B. Siddique, T. Khraishi.....1

**Study of the Relative Variations of the Thermal Properties
and Crystallinity of Blends (PP/EPR)/Calcium Carbonate**

P. M. A. Noah, F. B. Ebanda, L.-M. A. Ohandja, A. Atangana.....19

Modeling and Numerical Simulation of Material Science (MNSMS)

Journal Information

SUBSCRIPTIONS

The *Modeling and Numerical Simulation of Material Science* (Online at Scientific Research Publishing, <https://www.scirp.org/>) is published quarterly by Scientific Research Publishing, Inc., USA.

Subscription rates:

Print: \$69 per issue.

To subscribe, please contact Journals Subscriptions Department, E-mail: sub@scirp.org

Modeling and Numerical Simulation of Material Science

ISSN 2164-5345 (print) ISSN 2164-5353 (online)
<https://www.scirp.org/journal/mnsms>

Modeling and Numerical Simulation of Material Science (MNSMS) is an international peer-reviewed, open access journal publishing in English original research studies, reviews and case reports in all aspects of Material Science.

Honorary Editor-in-Chief

Prof. Kiet Tieu **University of Wollongong, Australia**

Executive Editor-in-Chief

Prof. Hailiang Yu **Central South University, China**

Subject Coverage

All the manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copies. The journal publishes original papers including but not limited to the following fields:

- Application of modeling and numerical simulation methods in analysis of solidification, forming, welding, heat treatment, surface engineering, process of materials, include, ferrous metals and alloys, non-ferrous metals and alloys, biomaterials, carbons, ceramic materials, polymer, composites, and other advanced materials.
- New development of modeling and numerical simulations methods for analysis material processes, such as finite element method, finite difference method, boundary element method, slab method, crystal finite element method, CA, MD, statistical methods, artificial intelligence method.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
