

## Special Issue on Viscoelastic and Viscoplastic Materials

### Call for Papers

Phenomena of contact between deformable bodies or between deformable and rigid bodies abound in industry and everyday life. We model the materials behavior with elastic, viscoelastic or viscoplastic constitutive laws. The goal of this Special Issue is to provide a platform for scientists worldwide to promote, share, and discuss various new issues and developments in the area of **viscoelastic and viscoplastic materials**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **viscoelastic and viscoplastic materials**. Potential topics include, but are not limited to:

- Viscoelastic materials
- Viscoplastic materials
- Mechanical properties
- Viscoelastic/viscoplastic behavior and structures
- Modeling and experimental aspects
- Applications

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Viscoelastic and Viscoplastic Materials**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	March 30th, 2017
Publication Date	May 2017

**Guest Editor:**
