# Table of Contents

**Volume 5  Number 2  February 2017**

**Chiral-Electroactive Low-Bandgap Polymer Composite**
N. Eguchi, K. Kawabata, H. Goto ......................................................... 1

**New Strategy for Chemically Attachment of Imine Group on Multi-Walled Carbon Nanotubes Surfaces: Synthesis, Characterization and Study of DC Electrical Conductivity**
O. Al-Shuja’a, A. Obeid, Y. El-Shekeil, M. Hashim, Z. Al-Washali ................................................................. 11

**Hexagonal Disk Structures Obtained during Carbonization of *Botryococcus braunii* Residues**
A. Wang, M. Demura, M. M. Watanabe, H. Goto ................................................................................................. 22

**Photoluminescence and X-Ray Diffraction Properties of Europium and Silver Co-Doped Tantalum-Oxide Thin Films Deposited by Co-Sputtering**

**Suitability of the Composite Made of Multi Wall Carbon Nanotubes-Polyvinylpyrrolidone for Culturing Invertebrate *Helix aspersa* Neurons**
J. Bernal-Martinez, R. Godínez-Fernández, A. Aguilar-Elguezabal .......................................................... 41

**Forced Electrocodeposition of Silica Particles into Nickel Matrix by Horizontal Impinging Jet Cell**
D. M. K. Abro, P. J. M. R. Dable, V. Amstutz, E. K. Kwa-Koffi, H. Girault .................................................. 51

**Electrochemical Polymerization of 4,4-Dimethyl-2,2'-Bithiophene in Concentrated Polymer Liquid Crystal Solution**
N. Eguchi, K. Kawabata, H. Goto ................................................................. 64

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: msce@scirp.org
Journal of Materials Science and Chemical Engineering is an international journal dedicated to the latest advancement of materials science and chemical engineering. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of materials science and chemical engineering. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Biomaterials and Biotechnology
- Carbon Nanomaterials
- Catalysis and Reaction Engineering
- Chemical Engineering
- Chemical Synthesis
- Composite Materials
- Extractive Metallurgy
- Fabrication of Nanomaterials
- Functional Material
- Inkjet Printing of Functional Materials
- Masonry Structures
- Metals and Alloys
- Microstructured Materials
- Modelling and Simulation in Structural Engineering
- Nanomaterials
- Nanotechnology and Nanoscience
- Polymer Processing
- Separation Science and Technology

We are also interested in: 1) Short Reports–2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews–Comments and critiques.

What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
