

Special Issue on Energy Materials

Call for Papers

Energy Materials is a hot spot in current research. There are many kinds of energy material, including photovoltaics, batteries, supercapacitors, fuel cells, hydrogen technologies, thermoelectrics, photocatalysis, solar power technologies, magnetic refrigeration, and piezoelectric materials. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **Energy Materials**.

In this special issue, we are going to invite front-line researchers and authors to submit original research and review articles that explore **Energy Materials**.

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue — Energy Materials**" should be chosen during your submission.

According to the following timetable:

Submission Deadline	August 29th, 2013
Publication Date	October 2013

Guest Editor:

Prof. **Badie I. Morsi**

University of Pittsburgh, USA
