

Special Issue on Biology and Environment

Call for Papers

Understanding the response of communities to spatially heterogeneous environmental conditions is an important challenge for ecologists. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **biology and environment**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **biology and environment**. In this special issue, potential topics include, but are not limited to:

- Plant environment
- Microbial environment
- Biodiversity and environment
- Forest environment
- Grassland environment
- Ecosystem stability

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - *Biology and Environment***” should be selected during your submission.

Special Issue timetable:

Submission Deadline	August 17th, 2024
Publication Date	October 2024
