## Open Journal of Applied Sciences ISSN Online:2165-3925

**Special Issue on Transportation and Future Mobility** 

## **Call for Papers**

Transportation and Future Mobility research is a multidisciplinary field that focuses on the study of transportation systems, modes of transportation, and the evolving landscape of mobility. It involves applying engineering, technology, social sciences, and policy analysis to address the challenges and opportunities in transportation. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Transportation and Future Mobility**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Transportation and Future Mobility**. In this special issue, potential topics include, but are not limited to:

- Intelligent transportation systems (ITS)
- Electric and autonomous vehicles
- Sustainable transportation
- Urban transportation planning
- Transportation and social equity
- Human factors in transportation
- Future mobility concepts

Authors should read over the journal's <u>For Authors</u> carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's <u>Paper Submission System</u>.

Please kindly specify the "Special Issue" under your manuscript title. The research field "Special Issue - *Transportation and Future Mobility*" should be selected during your submission.

Special Issue timetable:

Submission Deadline	April 28th 2024
Publication Date	June 2024
