

Special Issue on Chemical and Molecular Sciences

Call for Papers

Chemical and Molecular Sciences research encompasses the study of the fundamental principles governing the behavior, structure, and interactions of molecules and materials at the molecular level. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Chemical and Molecular Sciences**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Chemical and Molecular Sciences**. In this special issue, potential topics include, but are not limited to:

- Chemical Synthesis and Reactivity
- Molecular Structure and Spectroscopy
- Materials Chemistry
- Physical Chemistry
- Biochemistry and Molecular Biology
- Analytical Chemistry
- Environmental Chemistry
- Theoretical and Computational Chemistry

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Chemical and Molecular Sciences**” should be selected during your submission.

Special Issue timetable:

| | |
|---------------------|--------------------|
| Submission Deadline | October 20th, 2024 |
| Publication Date | December 2024 |

Guest Editor:

Prof. A.V.L.N.S.H. HARIHARAN, GITAM University, INDIA
