Subject Coverage

All manuscripts submitted to OJBD must be previously unpublished and may not be considered for publication elsewhere at any time during OJBD's review period. Generally, accepted papers will appear online within 3 weeks followed by printed hard copy. Topics to be covered by this journal include, but are not limited to:

- Acquired Clotting Disorders
- Anemias
- Animal Models
- Antiphospholipid Syndrome
- Artificial Cells, Blood Substitutes and Biotechnology
- Biology of Blood and Marrow Transplantation
- Blood Cells, Molecules and Diseases
- Blood Disorders
- Chemotherapy
- Clinical Management of Bleeding Diseases
- Coagulopathies
- Endothelium/Inflammation
- Fibrinolysis
- Gene Therapy
- Haemophilia
- Hematological Malignancies
- Hematology and Blood Transfusion
- Hemoglobinopathies
- Immunologic Diseases
- Inherited Clotting Disorders
- New Therapies for Thrombotic Disorders
- Pediatric Blood & Cancer
- Platelets Disorders
- Thrombotic Disorders
- Vascular Biology

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the OJBD.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
