

Special Issue on Construction Management

Call for Papers

Construction Management (CM) is a professional service that uses specialized, project management techniques to oversee the planning, design, and construction of a project, from its beginning to its end. The purpose of CM is to control a project's time, cost and quality. CM is compatible with all project delivery systems, including design-bid-build, design-build, CM At-Risk and Public Private Partnerships.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **construction management**. Potential topics include, but are not limited to:

- Construction planning and design
- Project time, cost and quality control
- Project decision making
- Bids and contracts
- Building safety and risk estimation
- Construction performance prediction

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Construction Management**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	March 15th, 2018
Publication Date	May 2018
