

Special Issue on
Built Environment and Construction Management
Call for Papers

Built Environment and Construction Management focuses on the development, planning, design, construction, and management of built environments, including buildings, infrastructure, and cities. It explores the application of scientific, technical, and humanistic approaches to the built environment and the construction process, and seeks to understand the complexities of constructing and managing buildings and infrastructure while prioritizing sustainability, safety, accessibility, and functionality. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Built Environment and Construction Management.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Built Environment and Construction Management**. Potential topics include, but are not limited to:

- Building regulations and standards
- Built environment and sustainability
- Building inspection and certification
- Construction design
- Cost estimating and budgeting
- Construction project management
- Construction engineering
- Construction financing
- Health and safety compliance
- Land and natural resources
- Landscape design and land use
- Real estate development
- Public spaces and community establishment
- Site engineering for construction
- Sustainable construction
- Safety and risk management

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Built Environment and Construction Management**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	November 28th, 2025
Publication Date	January 2026

Guest Editor:

Dr. Vasanthi Padmanabhan

Civil Engineering, Abdur Rahman University, India
