

## Special Issue on Energy Efficiency and Technologies

### Call for Papers

Energy efficiency is using technology that requires less energy to perform the same task. It aims to reduce the amount of energy required to provide products and services and reduce pollution effects. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Energy Efficiency and Technologies.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Energy Efficiency and Technologies**. Potential topics include, but are not limited to:

- Energy and environmental design
- Energy conservation
- Energy efficient vehicles
- Energy use for transportation
- Energy use in industry
- Energy-efficient products
- Energy-efficient technologies and materials
- Grid, transmission & utilities
- Optimizing system design
- Renewable energy
- Residential energy consumption
- Consumption and efficiency data and analyses

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Energy Efficiency and Technologies**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	April 30th, 2024
Publication Date	June 2024

**Guest Editor:**

Scientific Research  
*Open Access*

Open Journal of Energy Efficiency

ISSN Online: 2169-2645
