Open Journal of Fluid Dynamics (OJFD) is an international journal dedicated to the latest advancement of fluid dynamics. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of applied science.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

Aerodynamics
Bio-Fluid Mechanics
Boundary Layer Flow
Combustion and Reacting Flow
Compressible Flow
Computational Fluid Dynamics
Environmental Fluid Dynamics
Environmental Fluid Mechanics
Experimental Fluid Mechanics
Fluid Mechanics
Fluid-Structure Interaction

Free Shear Layer Flow
Heat and Mass Transfer
High-Speed Flow
Hydrodynamic
Jet and Wake Flow
Magnetic Fluid
Micro and Nano Fluidics
Micro Fluid Dynamics
Multi-Phase Flow
Multiphase Fluid Dynamics
Naval Hydrodynamics

Non-Newtonian Flow
Non-Newtonian Fluid Mechanics
Physical-Chemical Hydrodynamics
Plasma Dynamics
Radiation Hydrodynamics
Rotating and Stratified Fluid
Rotating Flow
Seepage Mechanics
Theoretical Fluid Dynamics
Turbulence Theory
Viscous Fluid

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Prospective Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
