Table of Contents

Volume 8   Number 4                                   October  2018

The Diversity and Composition of Woody Plants in Chebera Churcura National Park (CCNP), Southern Ethiopia
M. Girma, M. Maryo.................................................................................................................................439

Rehabilitating Degraded Hardwood Stands on a Bottomland Terrace Site with Overstory Removal and Oak Enrichment Planting: 14-Year Results
M. G. Olson, S. Hossain, K. Cunningham, M. H. Pelkki, C. Stuhlinger.........................................................459

Parkland Agroforestry of Ethiopia; Key to Production, Productivity, Biodiversity Conservation and Climate Change Mitigation: A Review
S. B. Estifanos...........................................................................................................................................472

Understory Recovery in Coast Redwood Communities: A Case Study Comparing a Naturally Recovering and an Actively Managed Forest
A. Hanover, W. Russell...............................................................................................................................489

Generating Tree-Lists by Fusing Individual Tree Detection and Nearest Neighbor Imputation Using Airborne LiDAR Data
J. Shin, H. Temesgen....................................................................................................................................500

Applying Sustainability and Ethics in Forest Management and Community Livelihoods: A Case Study from Arabuko Sokoke Forest, Kenya
M. T. E. Mbuvi, L. Ndalilo, A. Hussein.........................................................................................................532

The Carbon Sinks and Mitigation Potential of Deodar (Cedrus deodara) Forest Ecosystem at Different Altitude in Kumrat Valley, Pakistan
A. Ahmad, M. Amir, A. Mannan, S. Saeed, S. Shah, S. Ullah, R. Uddin, Q. Liu..............................................553

Floristic Composition and Diversity of Freshwater Swamp Forests in the Niger Basin of Nigeria
N. I. Igu, R. Marchant.....................................................................................................................................567

Call for Papers

Open Journal of Forestry

ISSN 2163-0429 (Print)  ISSN 2163-0437 (Online)
http://www.scirp.org/journal/ojf

Open Journal of Forestry (OJF) is an international journal dedicated to the latest advancement of forestry. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of forestry.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Carbon and Biomass Assessment
- Cultivation of Economic Plants
- Economic Management of Forest Resources
- Forest Botany
- Forest Ecology
- Forest Entomology
- Forest Environmentology
- Forest Fire/Wildfire
- Forest Genetics and Plant Breeding
- Forest Management Science
- Forest Operation
- Forest Pathology
- Forest Pest Control
- Forest Policy Analysis
- Forest Protection
- Forest Resource Statistics
- Forestry Economics and Management
- Forestry Projects
- Gardening
- Human Dimensions of Forestry
- Land Resource Science
- Plant Nutrition
- Plant Physiology
- Silviculture
- Soil Fertilizer Science
- Urban Forestry
- Wildlife Conservation and Management

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

**What is SCIRP?**

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

**What is Open Access?**

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
