

Special Issue on Forest Ecology and Forest Protection

Call for Paper

Forest resource protection in many countries addresses issues from the definition of the forest, to the establishment of the government agencies responsible for aspects of forest policy and management, to the creation of mechanisms for conflict resolution, and other concerns. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Forest Ecology and Forest Protection**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Forest Ecology and Forest Protection**. In this special issue, potential topics include, but are not limited to:

- Management and conservation of plantations
- Community diversity and complexity
- Forest ecology and management
- Vegetation protection
- Wildlife conservation
- Forest protection policies
- Challenges in forest ecology and management

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Forest Ecology and Forest Protection**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	March 28th, 2024
Publication Date	May 2024
