

Special Issue on Statistical Genetics

Call for Papers

Statistical Genetics is a scientific field concerned with the development and application of statistical methods for drawing inferences from genetic data. The term is most commonly used in the context of human genetics.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **statistical genetics**. Potential topics include, but are not limited to:

- Quantitative genetics
- Biostatistics
- Computational biology and bioinformatics
- Population genetics
- Design and analysis of genetic association studies
- Gene expression and epigenetic markers
- Gene-environment interaction
- Genetic epidemiology

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Statistical Genetics**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	October 31st, 2016
Publication Date	December 2016
