Open Journal of Inorganic Non-metallic Materials

ISSN 2164-6791 (Print) ISSN 2164-6805 (Online)

<http://www.scirp.org/journal/ojinm>

Open Journal of Inorganic Non-metallic Materials (OJINM) is an international journal dedicated to the latest advancement of Inorganic Non-metallic Materials. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of inorganic non-metallic material.

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

Ceramics
Composite Materials
Dental Materials
Diamond and Related Materials
Glass and Amorphous
Inorganic Chemistry
Inorganic Materials
Inorganic Polymers and Materials

Low-Dimensional Inorganic Non-metallic Materials
Materials Synthesis and Processing
New Carbon Materials
Other Disciplines of Inorganic Non-metallic Materials
Porous Materials
Semiconductor Materials
Special Features of Inorganic Non-metallic Materials
Strength of Materials

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
