Open Journal of Medicinal Chemistry (OJMC) is an international journal dedicated to the latest advancement of medicinal chemistry. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of medicinal chemistry and related disciplines.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. Topics to be covered by this journal include, but are not limited to the following fields:

- Biotherapeutics Including Molecular Biology, Production, Purification and Formulation
- Drug Design
- Drug Mechanism of Action
- Heterocyclic Chemistry
- Molecular Modeling and Computational Chemistry
- Organic Chemistry
- Peptidomimetics
- Synthesis Strategies Including New Concepts

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
