Open Journal of Modern Neurosurgery (OJMN) is an international journal dedicated to the latest advancement of Modern Neurosurgery. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Modern Neurosurgery. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Cerebrovascular Surgery
- Cervical and Lumbar Spinal Stenosis
- Functional Neurosurgery
- Head Trauma
- Hydrocephalus
- Intracerebral Hemorrhage
- Minimally Invasive Surgery
- Movement Disorders
- Moyamoya Disease
- Neurotrauma
- Pediatric Neurosurgery
- Peripheral Neuropathies
- Skull Base Surgery
- Spinal Cord Trauma
- Spinal Disc Herniation
- Spinal Surgery
- Traumatic Injuries of Peripheral Nerves
- Tumours of the Spine, Spinal Cord and Peripheral Nerves
- Vascular Malformations of the Brain and Spinal Cord

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
