

Special Issue on COVID-19 Nursing Care Management

Call for Papers

Careful assessment is essential in the evaluation and management of patients who may have COVID-19, and particularly in those with fever, acute respiratory illness, and other symptoms of infection. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **Covid-19 nursing care management**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **COVID-19 nursing care management**. In this special issue, potential topics include, but are not limited to:

- Clinical characteristics, transmission, and spread
- The pandemic crisis of COVID-19
- Nurses' contribution in anti-COVID-19
- Key challenges faced by nursing professionals during COVID-19
- Research to enhance knowledge on COVID-19 prevention and management
- Nursing care planning and goals
- Nursing interventions
- Nursing perspectives on the impacts of COVID-19

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – COVID-19 Nursing Care Management**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	February 26th, 2024
Publication Date	April 2024
