

Special Issue on Infertility & Reproductive Medicine

Call for Papers

Infertility is diminished or absent ability to conceive and bear offspring. Infertility can have many causes and may be related to factors in the male, female, or both. Treatments can include medications and assisted reproductive technologies.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Infertility & Reproductive Medicine**. Potential topics include, but are not limited to:

- Reproductive endocrinology & infertility
- Reproductive biology
- Pathophysiology
- Infertility and genetics
- Reproductive disorders and therapy
- Reproductive surgery
- Assisted reproductive technology
- Reproductive toxicology assessment
- Recurrent pregnancy loss
- Polycystic ovary syndrome
- Endometriosis
- Unexplained infertility
- Nutrition and exercise intervention
- Innovative reproductive technologies

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Infertility & Reproductive Medicine**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	January 11th, 2023
Publication Date	March 2023
