

Special Issue on Complications of Pregnancy

Call for Papers

The academic topic "Complications of Pregnancy" encompasses the study of medical issues and adverse conditions that can occur during pregnancy, affecting the health of the mother, the fetus, or both. This field aims to understand, diagnose, and treat complications such as gestational diabetes, preeclampsia, miscarriage, preterm labor, and infections. Research and education in this area are crucial for enhancing prenatal care, minimizing risks, and promoting positive pregnancy outcomes for both mothers and their babies.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Complications of Pregnancy**. Potential topics include, but are not limited to:

- Gestational diabetes
- Gestational hypertension
- Eclampsia and preeclampsia
- Placental disorders
- Preterm labor and prematurity
- Miscarriage and stillbirth
- Placental complications
- Infections during pregnancy
- Obstetric hemorrhage
- Intrauterine growth restriction
- Ectopic pregnancy
- Maternal mortality
- Postpartum depression

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Complications of Pregnancy**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 18th, 2024
---------------------	-----------------

Scientific Research
Open Access

**Open Journal of Obstetrics
and Gynecology**
ISSN Online: 2160-8806

Publication Date	August 2024
